SUMMARY

I am a final-year Software Engineering undergraduate at SLIIT CITY UNI with 1 year of professional internship experience (AI Intern internship) in software development. I specialize in full-stack web development and AI development using modern frontend and backend technologies, with hands-on experience building scalable, responsive applications and working in Agile team environments. I have strong problem-solving skills, excellent communication in Sinhala and English, and a passion for learning emerging technologies. I am seeking opportunities to contribute to impactful software projects and grow as a developer.

ACADEMIC QUALIFICATIONS

Sri lanka Institute of Information technology (SLIIT CITY UNI)	Jan 2025 - July 2026
• Classification: Second Class, Upper Division	
Cardiff Metropolitan University /(ICBT)	2023-2024
S. Thomas' College, Matara	2006-2021
• G.C.E. Ordinary Level 2018	
• G.C.E. Advanced Level(Maths stream) 2021	

WORK EXPERIENCE

Intern AI Solutions Architect	Sep 2025 - Aug 2026
• Designed and developed scalable websites and a web-based application with a strong focus on functionality, performance, and user experience. • Built and maintained both front-end and back-end components using React.js, Next.js, Node.js, JavaScript, TypeScript, and MongoDB. • Collaborated with cross-functional development teams to implement new features and ensure successful project delivery. • Performed code reviews, testing, and debugging to improve application stability, reliability, and overall code quality. • Integrated n8n workflow automation into web applications and utilized Docker for containerization and deployment support.	

TECHNICAL SKILLS

- POWER BI
- EXCEL
- PYTHON (PANDAS / NUMPY)
- MACHINE LEARNING
- SQL
- R STUDIO
- C++
- JAVA
- VERSION CONTROLLING - GIT HUB
- GOOGLE COLAB
- HTML /CSS /PHP / JAVASCRIPT
- MERN STACK

ACADEMIC PROJECTS

- A digital platform used to create, manage, deliver, and monitor learning content, assessments, and learner activities and The AI-based component of the proposed system that analyzed student answers and generated scores, Keyword Matching and feedback.([Link](#))
- Developed a Stock Management System for a real-world client, Rohitha Suppliers and Hardware, as part of a university project.([Link](#))
- A full-stack web-based number guessing game where players solve image-based banana puzzles to earn points and climb the leaderboard.([Link](#))
- Engineered a production-inspired blockchain in Go with cryptographic wallets, Merkle tree validation, concurrent mining, and automatic difficulty retargeting. Applied blockchain principles including proof-of-work, fork resolution, and secure transaction verification.([Link](#))

EXTRA CIRRICULAR ACTIVITIES

- Rugby foot ball Guinness world record (2012).
- Active Committee member of the project connecting class room for International School Award (2012-2015).
- Under 13, 15 and 17 Sri Lanka Schools' Team Chess Tournament (District 1st Runner up ,Southern Province 1st Runner up and All island Participate).
